

POTENTATE'S MESSAGE

It is indeed a privilege to extend to one and all a sincere welcome to our thirty-first annual Shrine Circus. As this is Khartum Temple's Diamond Jubilee, a special effort has been made to select acts that will appeal to both young and old. All the acts chosen for this year's show are outstanding and we feel will provide fun and entertainment for all.

To the Press, Radio and Television, for their co-operation and support, and to the people who advertise in our program, I offer my sincere appreciation and thanks.

A special thank you to the "Circus Daddies" who have brought pleasure to those less fortunate than ourselves.

To our general and committee chairmen, the officers, unit members and nobles who have worked so diligently to make our show possible, my heartfelt gratitude.

LLOYD D. McPHAIL,
Illustrious Potentate, Khartum Temple.

"THE FLYING ARMORS"

Since the first shrill toot of the caliope welcomed the first starry-eyed child to the wonderful world of sawdust and cotton candy, the anticipated highlight of any circus has been the grace and daring of pirouetting figures on the flying trapeze. This year, the Khartum Shrine Circus is particularly proud to present the fabulous Flying Armors — the most heralded high-flying trapeze stars in the world today.

Did you know that there are 40,000 separate and distinct muscles in an elephant's trunk? The fingers on an elephant's trunk are the same as the fingers on your hand, it is also a nose and with the trunk the elephant carries food and water to the mouth, a sort of knife and fork. An elephant does not drink through the trunk but sucks the water into the trunk and then squirts the water into the mouth. You see, there is a valve two-thirds of the way up the trunk. Nature put it there so the elephant would not choke to death.

SHRINERS HOSPITALS FOR CRIPPLED CHILDREN

(Winnipeg Unit)

The Winnipeg Unit, Shriners Hospitals for Crippled Children, is one of the bright show places in Metropolitan Greater Winnipeg, particularly in the summer. The Hospital is open to the general public every Sunday afternoon from 2 to 3:30 o'clock and this is an open invitation for the citizens of Winnipeg, and visitors, to visit our Hospital and see the work we are doing for Crippled Children, without regard to Color, Race or Religion. Patients are admitted only from homes whose parents are unable to pay the required medical costs. Shrine Hospitals, therefore, have no financial patient income, but our great reward is being able to restore Smiles to little faces and Hope for the future in little hearts.

Here is a short history of our work in Winnipeg:

1925—Mobile Unit, Shriners Hospitals for Crippled Children opened in Winnipeg and this later became a wing of the old Children's Hospital, Redwood Ave.

1945—Authority received from Board of Trustees for the construction of the Winnipeg Unit, Shriners Hospitals for Crippled Children in Winnipeg. Property obtained at 633 Wellington Crescent.

1946—First sod turned by Imperial Potentate George H. Rowe.

1947—Cornerstone of new 40-bed Hospital laid at special ceremony by Arthur W. Chapman, Chairman of the local Board of Governors.

1949—On June 9th all children moved from the old hospital to their new home on Wellington Crescent.

1950—On March 29th, Imperial Potentate Harold Lloyd, visited Winnipeg to officially dedicate the new hospital, "To the Glory of God and to the Healing of this and future generations of Crippled Children".

1950—In May it was necessary to move all the patients from the Hospital to Regina owing to the flood conditions that prevailed in Manitoba for several weeks. No damage was done to the Hospital.

1950—At the June annual meeting of the Imperial Council in Los Angeles, Potentate Fred Parrish, of Khartum Temple, assisted by the Potentates of the three Western Canadian Temples, handed the deed for the new Hospital over to the Chairman of the Board of Trustees, Galoway Calhoun, who said it was the only occasion in all Shrine history that a Hospital had been turned over to the Trustees all paid for and free of debt.

1962—Authority received from Board of Trustees to increase the capacity of the Winnipeg Unit from 40 to 50 beds, to take care of the increasing waiting list.

1962—Hospital remodelled. Many needed features added and today the Winnipeg Unit is one of the brightest Jewels in the crown of Shrinedom.

This act has been presented to American audiences within recent years by a segment of the celebrated Swiss family, owners of a rich circus heritage spanning five generations.

Millions who have been awed by the breath-taking exploits of the Nerveless Nocks, a four-person swaypole unit, have witnessed what has been lauded, and deservedly so, as "the acme of aerial attainments".
